Nixon/ junketing

Have you noticed that from the beginning of the Agnew flap GL has not bee wasting airplane fuel on himself? He hasn't gone anywhere since he returned. What reminded me of this is just hearing helicopters (which need not be his but the greater probability is that they are).

It is not because he is more worried about WG. He is in better shape on that than he has been. The one thing of which - know that can explain his perhaps record-breaking stay at the WH is sharpening the knives for Agnew. This suggests that he is field-generalling it himself.

In the short time since the beginning of the play against Agnew, there has been a remarkable change. Never hear any talk of impeaching Nixon, not that any of it had any serious prospect. Now, even unseriously, never mentioned.

One of the early chapter I wrote was Republicans Are Cannibals:Richard Nixon. I've worked it into another chapter. It is a quote.

HW 9/28/73
